EDUCATION

Kantipur City College (KCC) — Putalisadak, Kathmandu
Bachelors in Computer Apllication and Information Technology — 2021 – 2025

GEMS Institute og Higher Education (GIHE) — Dhapakhel, Lalitpur
+2 in Science (Physics) — 2019 – 2021

EXPERIENCE

UI/UX and Product Designer — November 2024 - October 2025
Arete Vivo SEO — *Banasthali, Kathmandu*

- Designed seamless digital interfaces for Amazon product listings, A+ content, and social media materials utilizing **Adobe Photoshop** and **Illustrator**.
- Combining user-centered interface design with high-converting visual strategy using tools like **Figma** to build seamless digital experiences.

Lead Designer — October 2025 - September 2026
RABS International — *Jawalakhel, Lalitpur*

- Specializing in high-impact visual communication by capturing audience attention and maximizing brand visibility.
- Creating engaging social media posts to drive online interaction alongside large format advertising boards, utilizing **Adobe Photoshop** and **Illustrator**.

Frontend Developer — January 2026 - Present
Chitra Tech — *Remote*

- Leveraging cutting-edge tools, including **Groq's LLaMA** models, to build smart features and maximize usability across digital touchpoints.
- Dedicated to crafting interactive, responsive user interfaces utilizing **JavaScript, TypeScript** and it's modern frameworks like **React**.
- Combining clean code with strong design principles to connect frontend components with backend services like **Node.js** and **Firebase**.

PROJECTS

MINA: My Intelligent Nursing Assistance | *React, Tailwind CSS, Groq SDK, Node.js, Firebase, Web RTC*

- Developed a modern healthcare web application enabling online medical consultations, streamlined appointment bookings, and AI-assisted healthcare support.
- Integrated **WebRTC** to facilitate secure, real-time video consultations between patients and healthcare providers.
- Connected backend services via **Node.js (Express)** with **Groq SDK (LLaMA 4)** to power intelligent, AI-assisted medical triage features.
- Implemented Firebase Authentication and Firestore for secure user management, data handling, and real-time database updates.

Chitra Tech Website | *React, TypeScript, Vite 7, Tailwind CSS, Radix UI, Lenis, Firebase*

- Developed a high-performance, full-service corporate platform serving as a digital storefront for modern software development solutions and client service packages.
- Engineered a fully responsive, accessible user interface utilizing **React, TypeScript,** and **Radix UI** primitives for seamless navigation.
- Integrated **Lenis** to deliver smooth momentum scrolling, enhancing the overall user experience and modern aesthetic of the site.
- Configured rapid asset bundling via **Vite 7** and deployed the production-ready application seamlessly using **Firebase** Hosting.

SAUD Leather | *Next.js, React, TypeScript, Tailwind CSS, Firebase, Cloudinary*

- Developed a modern, feature-rich e-commerce storefront for premium leather goods, fashion essentials, and accessories with a polished customer shopping experience.
- Built comprehensive user flows including dynamic product detail pages, shopping cart management, and personalized profile dashboards.
- Implemented an administrative suite featuring product management, CMS-style storefront controls, and analytics/insights tracking.
- Configured secure data handling and real-time backend operations using **Firebase/Firestore**, paired with **Cloudinary** for optimized media uploads.

RaktaSewa | *PHP 8.0, MySQL 8.0, JavaScript, HTML5, CSS3, PDO*

- Developed a comprehensive blood bank management platform designed to streamline donation workflows and efficiently connect donors with hospitals.
- Implemented server-side logic and database abstraction layers utilizing **PHP 8.0+** and **PDO** for secure data handling.
- Designed a dynamic, interactive user interface using modern **JavaScript (ES6+)**, **HTML5** Semantic Markup, and **CSS3**.
- Managed robust backend database operations and queries securely via **MySQL** 8.0+ and **phpMyAdmin**.

TECHNICAL SKILLS

Languages: *JavaScript, TypeScript, C/C++/C#, HTML5/CSS3, Python, Java, PHP 8.0+*
Frameworks: *React, Next.js, Node.js (Express), Vite 7, Tailwind CSS, Radix UI, Shadcn/ui, Framer Motion*
Databases & Backend: *Firebase, MySQL, PDO, Cloudinary*
Tools & Platforms: *Git, WebRTC, Groq SDK, Lenis, XAMPP, phpMyAdmin, VS Code, Visual Studio, PyCharm*
Design & Creative: *Figma, Adobe Photoshop, Illustrator, After Effects, Lightroom, Canva*
