Runner Up

PROFILE

As an aspiring IT Professional specializing in Front-End Development, I am dedicated to transforming technical concepts into clean, user-centric digital solutions while continuously expanding my technical toolkit. My foundational expertise includes building responsive web components engineered to optimize digital workflows, alongside a strong drive to master modern frameworks and responsive design principles. Blending a keen eye for detail with a passion for continuous learning, I am eager to collaborate with cross-functional teams, absorb industry best practices, and deliver reliable code that elevates software utility and enhances the user experience.

WORK EXPERIENCE

Arete Viva Seo (November 2024 - October 2025).

UI/UX and Graphic Designer

As a UI/UX and Graphic Designer, I blend user-centered interface design with high-converting visual strategy. My expertise spans seamless digital interfaces alongside optimized Amazon product listings, A+ content, and social media assets engineered to drive sales. By combining creative intuition with user behavior insights, I deliver cohesive digital solutions that elevate brand presence and maximize conversions.

RABS International (October 2025 - August 2026).

Creative Lead

As a Creative lead, I specialize in high-impact visual communication, creating engaging social media posts that drive online interaction alongside large-format advertising boards designed to capture attention and maximize brand visibility.

CERTIFICATIONS

IT Workshop, 2022
Mid Valley International College
- Kathmandu

Hackathon, HimalAI , 2025
- Kathmandu

PROJECTS

Weather Tracker

(HTML, CSS, Javascript)

A fully functional calculator with a clean interface supporting basic arithmetic operations.

To-Do List

(HTML, CSS, Javascript)

A responsive task management app with add, delete, and mark complete functionality.

Weather Tracker

(HTML, CSS, Javascript)

Real-time weather app with geolocation support and animated forecasts.

Chitra Tech (April 2026 - Present)

Creative Lead and Frontend Developer

As a Creative Lead and Frontend Developer, I focus on crafting interactive, high-performance web interfaces and visually compelling branding, combining clean code with strong design principles to maximize brand presence across digital touchpoints.

WORKS

Aanya

(HTML, CSS, Javascript)

A modern e-commerce clothing store designed for effortless catalog browsing and personalized style discovery, featuring a responsive, highly optimized checkout experience built for smooth interaction across all devices.

RaktaSewa

(HTML, CSS, Javascript)

A real-time blood platform connecting voluntary donors with emergency requests, streamlining hospital inventory tracking, and enabling instant notifications to speed up life-saving blood distribution when every minute counts.

Mina

(HTML, CSS, Javascript)

An intelligent telemedicine platform developed as a hackathon and university project, providing seamless virtual consultations, appointment bookings, and AI-assisted support to streamline preliminary care and patient triage.
